## Analysis

As per the problem statement, we have built a console with multiple visualizations through which we can get lots of insights present in the dataset.

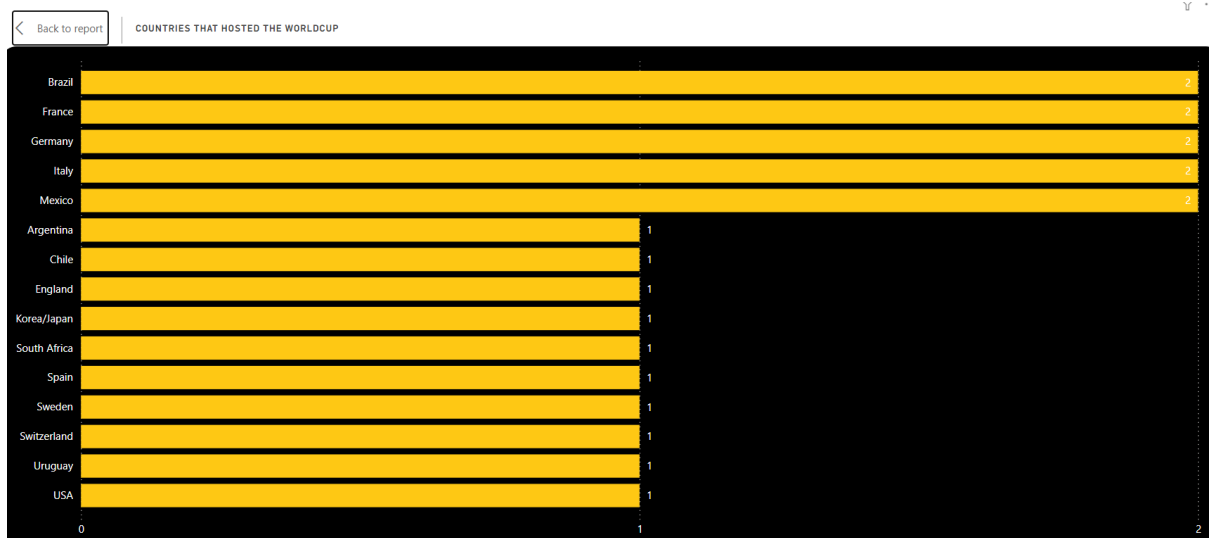

## Complete Console

- FIFA Stats Reports

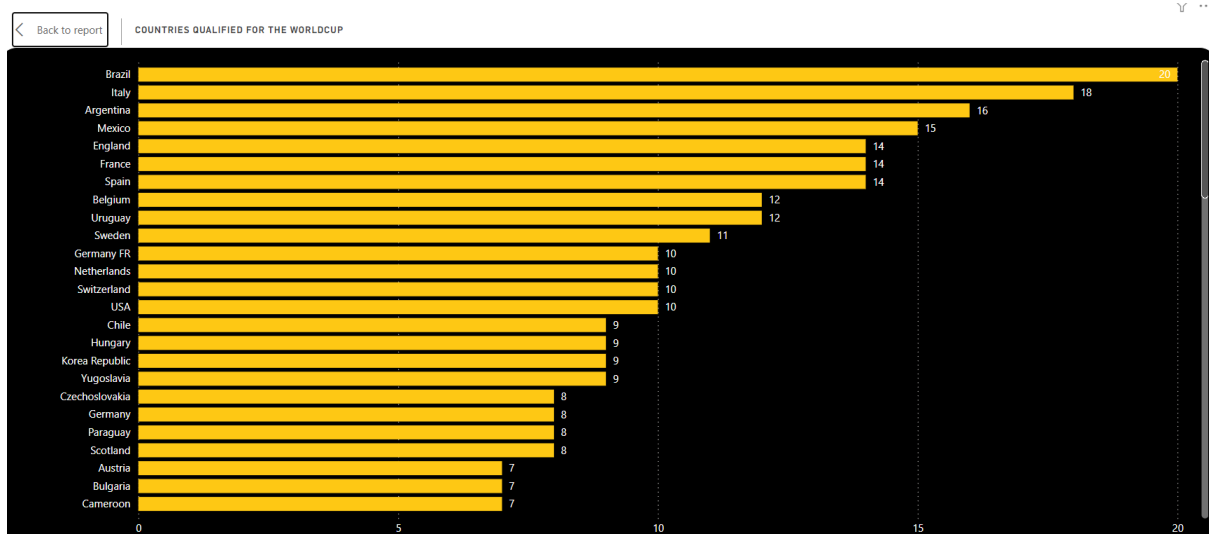

## Components of Dashboard

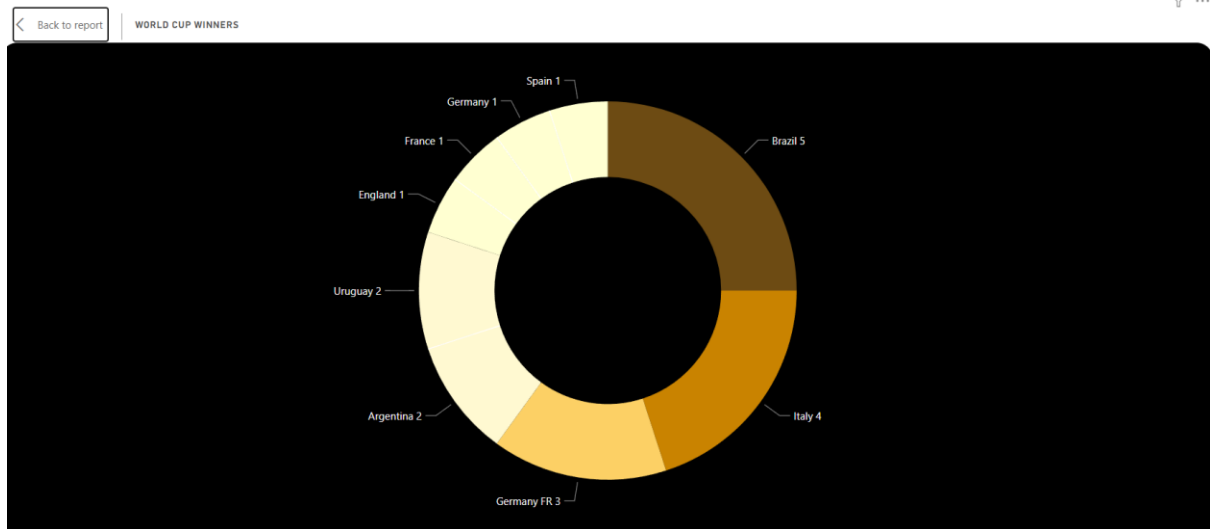

- Host Countries

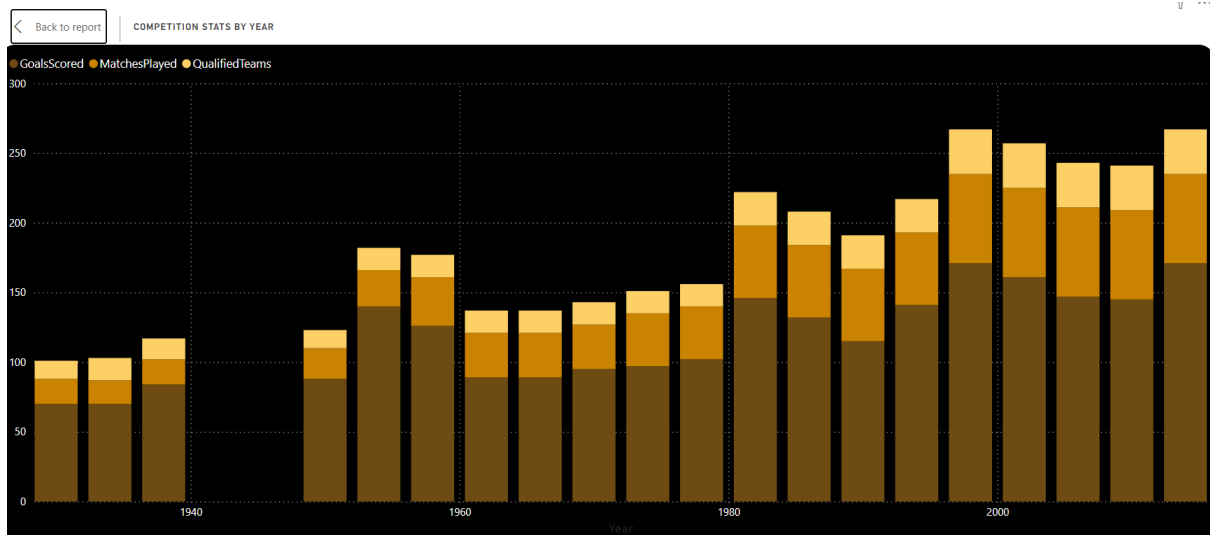

- Qualifying Countries

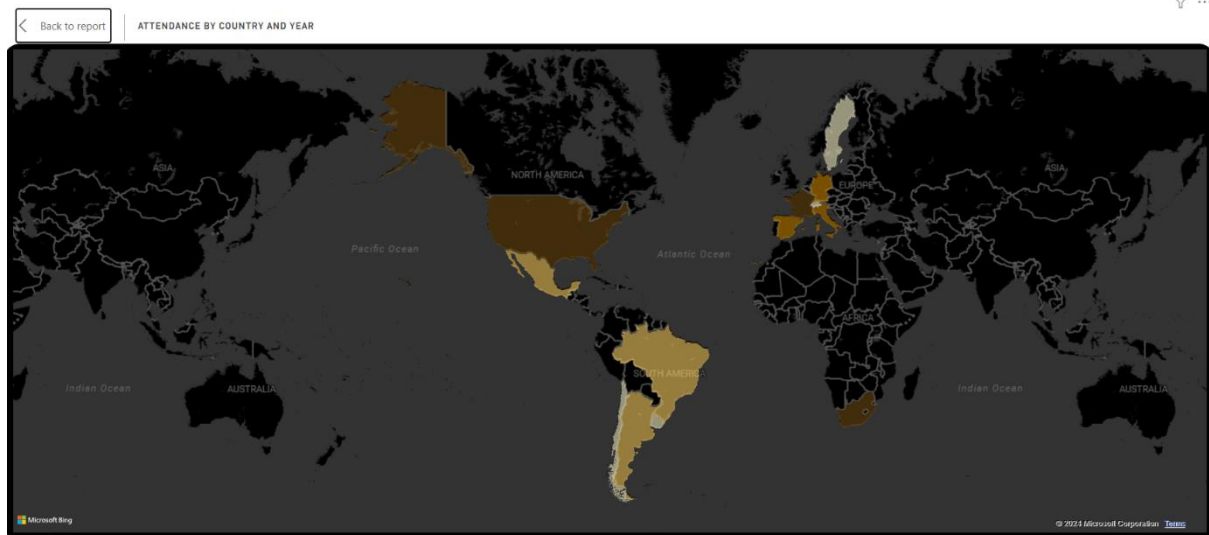

- Winners

- Competition Statistics

- Attendance

## Insights

1. France, Germany, Italy and Mexico each have hosted the World Cup twice.
2. The stats for years 1942 and 1946 aren't shown as the tournaments were cancelled.

3. Highest attendance is recorded as 3.58M at the United States in the year 1994 and the lowest recorded attendance is 363 in Italy during 1934 tournament.
4. Brazil has qualified in the tournament for 20 times, the maximum, and hereby holds the highest number of titles, i.e. 5.
5. Italy qualified for 18 times, the top second spot, and rightfully has the second-highest, 4 cups. Argentina, although, qualified for 16 times and won only twice, whereas Germany FR qualified 10 times and won 3 titles.
6. Argentina, Chile, England, Korea/Japan, South Africa, Spain, Sweden, Switzerland, Uruguay, USA have all hosted the FIFA World Cup once.
7. Mexico has qualified for 15 times but never won.
